

Paypool

Paypool™ Bulk Payment Distribution

Paypool™ offers an efficient way to pay individuals, with an automated solution that disburses funds and tracks activity - eliminating the hassle of manual processing.

Whether on a one-time or recurring basis, Paypool™ provides a simple, low-cost way for companies to distribute funds to any number of individuals, all at the same time.

How It Works

Upload Data → **Validate Data** → **Process Payments**

It's a three-step process. Clients upload payment data, Paypool™ validates the data, and payments are processed. Payment data is available on demand for client reconciliation.

Benefits

Paypool™ removes the burden of distributing payments. We handle the entire process, with all transaction data available at your fingertips.

We serve any company with bulk payment requirements. Paypool™ supports transactions of all types, including:

- Warranty
- Litigation
- Royalty
- Insurance
- Rebate
- Reimbursement
- Customer Service
- Refunds

Who We Are

Paypool's™ bulk payment service launched in 2016 to provide an advanced payment disbursement solution. Our payment technology, bank partnerships, and transaction facilities can help organizations of all sizes distribute funds.

Let Paypool™ handle your payment disbursements.
